

FORTH PORTS LIMITED

NtM No 40 of 2016

23rd December 2016

NOTICE TO MARINERS FIRTH OF FORTH

2017 MARINE RATES AND CHARGES

Please be advised that the 2017 Marine Rates and Charges Document has now been published and is available on the Forth Ports website at www.forthports.co.uk/marine/tariffs

The document contains the rates for 2017 for both Pilotage and Conservancy.

The overall tariff for Pilotage and Conservancy has been increased by 2.5% with some further adjustments on the boarding and landing scales. There are now also sections in Conservancy regarding charges for working cargo at anchorages and attendance at meetings by the Marine Team outside normal operational duties.

We are pleased to report that following a review of the finances no additional increase is required this year in respect of the Pilots national Pension fund deficit. Forth Ports will continue to review the monies collected in respect of the Pilots National Pension Fund deficit and will adjust the percentage allocated to the deficit as appropriate on an annual basis.
