NtM No 20 of 2018

24th May 2018

NOTICE TO MARINERS FIRTH OF FORTH

GDPR CREW LISTS

The General Data Protection Regulations (GDPR) which come into force on 25 May 2018 bring notable changes to the Data Protection law in the UK. This new regulations will require us all to adapt the ways in which we process and store data related to our business.

To this end, Forth and Tay Navigation Service (FTNS) will no longer accept crew and passenger lists regarding vessel calls. Effective immediately all Agents are requested to cease forwarding crew/ passenger lists to FTNS for all vessel calls. FTNS does not have a need for this Data in normal operation and if a need was to arise the crew/passenger list would be requested on a case by case basis.

It is appreciated that pre-arrival documentation is forwarded from the vessel but going forward the crew/passenger list or any other personal data should be removed before sending to FTNS.
