Enabling rail freight connectivity across the country

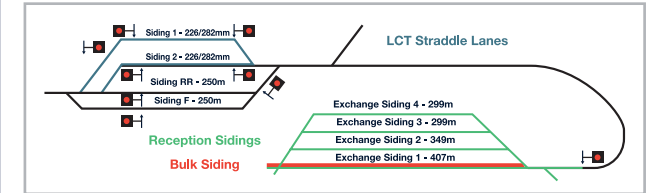

Rail Operations – Value Proposition

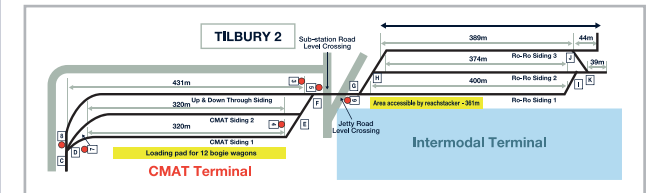

- Tilbury Port estate has 2 intermodal and 2 bulk rail terminals
- Forth Estuary ports can receive both bulk and intermodal rail traffic
- All rail terminals are multi train operator open access facilities
- All terminals have reception sidings for stabling and manoeuvring
- Capable of handling the largest freight trains on the network with 775m sidings
- London and Grangemouth container terminals are rail integrated
- 24/7 operations available
- Reach stacker and straddle carrier train handling capability
- Track record of delivering efficient services at high levels of demand
- Provide fast onward rail distribution to major retailers and DCs
- Capability to handle maritime and domestic rail traffic
- Industry leading security standards through ISPS, SACTFF and AFSSO
- Reefer charge points available (1,886 points)
- Advanced BCP facilities across 3 intermodal sites
- Cross-docking and warehousing services available
