

FORTH PORTS LIMITED

NtM No 53 of 2024

3rd June 2024

NOTICE TO MARINERS

Firth of Forth

Forth Road Bridge Works

Mariners are advised that commencing on or around the 3rd June 2024 is the next phase of the Forth Road Bridge Span Under Access Improvements. These works will continue until December 2024.

The works area on the bridge extends from the southern edge of the main channel northwards for a distance of approximately 100 metres.

The works will involve the upgrading of the existing walkways beneath the deck of the Bridge and will be undertaken once a full scaffolding system has been installed. Prior to the installation of the scaffolding, debris netting will be put in place, and this will remain in-situ until the works are completed. During the installation of the debris netting and scaffolding a safety boat will be on station.

The works area and scaffolding will be within the envelope of the stiffening truss of the Bridge and will not affect the clearance height.

If further details are required these may be sought from Bear Scotland's central control room – 0131 3193083.

Fraser Parker

Assistant Marine Manager – Rosyth and Dundee
